

WDC MEDIA NOTES **Dissemination of News**

- Media lists are cross-referenced by beat, reporter and subject matter to insure the best possible results and pick-ups for our clients.
- Multiple media contacts in this media list reflects additional contacts on file with our firm.
- WDC's press release distribution portal meets "AP" standards for electronically transmitted news.
- All press releases are sent via a secured & dedicated server owned & maintained exclusively by WDC.
- WDC's database contains over 110,000 media contacts.
- WDC contacts reporters by phone, fax and email in pursuits of coverage for our clients.
- WDC posts news releases to online news services linked directly to Google, MSN and Yahoo News to insure the greatest visibility possible for clients.
- Client news is indexed through WDC RSS feeds and available for quick syndication online.
- WDC guarantees to do our very best to obtain coverage for our clients. What WDC can not guarantee is the media's actual interest level or response? For this reason WDC only signs clients who we feel will have a high probability of their news being picked-up by the media.
